INDEX TO VOLUME 16

EDITORIAL NOTES AND COMMENTS

1-2, 177-180, 263-265, 353-354

ARTICLES

Ability Standards for General Science, E. D. Heiss, 479-484
Activity Analysis as a Basis for Supervision in General Science, Edith M. Selberg, 188-191
Aptitude and Its Relation to Achievement in General Chemistry, W. J. Bray, 439-442
Ashbaugh, E. J., General Science in the Eighth Grade or Not?, 24-28
Astell, Louis A., High School Chemistry Clubs, 277-281

Bagby, Grace, Variation in Method of Teaching General Science, 443-447
Bayles, Ernest E., Unit Organization in High School Physics, 47-50
Biology, Does A Teacher Need to Know?, Elizabeth L. Bishop, 125-133
Biology Teaching, Projects in, Fred R. Clark, 220
Bishop, Elizabeth L., Does A Teacher Need to Know Biology?, 125-133
Bray, W. J., Achievement in General Chemistry as It Is Related to Certain Learning Abilities, 149-162
———, Aptitude and Its Relation to Achievement in General Chemistry, 439-442
Brodshaug, Melvin and Strayer, J. F., Sound Pictures in Elementary Science, 360-367
Bruce, G. V., An Attempt to Vitalize Chemistry Teaching in the High School Through a Modified Form of the Unit-Assignment Technique, 209-219, 392-403
Buffalo Museum of Science, Eurypterid-Hercynella Buffaloensis, 274-276

Campbell, C. G., Do Teachers of Chemistry Know Their Physics?, 475-476
Chemistry as It Is Related to Certain Learning Abilities, Achievement in General, W. J. Bray, 149-162
Chemistry Clubs, High School, L. A. Astell, 277-281
Chemistry, Critical Summary of the Research on the Lecture-Demonstration Versus the Individual-Laboratory Method of Teaching High School, D. B. Stuit and M. D. Engelhart, 380-391
Chemistry, How We May Meet Individual Differences in High School, G. E. Monroe, 485-496
Chemistry Teaching in the High School Through a Modified Form of the Unit-Assignment Technique, An Attempt to Vitalize, G. V. Bruce, 209-219, 392-403
Chemistry, The Use of the Iowa Chemistry Aptitude Test in Foretelling Success in High School, G. A. Cook, 51-54
Clark, F. R., Projects in Biology Teaching, 220
Clemenson, Jessie W., Study Outlines in Physics—Construction and Experimental Evaluation, 453-461
Cook, G. A., The Use of the Iowa Chemistry Aptitude Test in Foretelling Success in High School Chemistry, 51-54
Craig, G. S., Science in Russian Elementary Schools, 3-5
Curtis, F. D., Some Contributions of Research to Practices in Science Teaching, 266-273

Do Teachers of Chemistry Know Their Physics?, C. G. Campbell, 475-476
Downing, E. R., Methods Versus the Mechanics of Instruction, 468-471
———, Projects and Principles of Science, 285-288

Edwards, P. G., Launching and Maintaining an Elementary Science Program in a Large City System, 462-467
Elementary Science Program in a Large City System, Launching and Maintaining an, P. G. Edwards, 462-467
Eurypterid-Hercynella Buffaloensis, Buffalo Museum of Science, 274-276

General Science in the Eighth Grade or Not?, E. J. Ashbaugh, 24-28
General Science Textbook Making, W. T. Wyman, 29-33
"Genes"—The Units of Heredity, 268-379
German Elementary Schools, Natural Science Education in, L. M. Shoemaker, 13-17, 94-102

Heiss, E. D., Ability Standards for General Science, 479-484
Hunter, G. W., The Sequence of Science in the Junior and Senior High School, 103-115

Hunter, G. W. and Knapp, Roy, Science Objectives at the Junior- and Senior-High-School Level, 407-416
Hurd, A. W., Summary of Factual Questionnaire on the Training of Prospective Teachers of Science, 134-139
———, What Is Professionalized Subject-Matter in Teacher-Training?, 238-243
Huxley, Thomas Henry: Crusader of Science, I. W. Voorhees, 66-72

Mathewson, F. T., Some Refinements of the Familiar Photosynthesis Experiment, 477-478
McSpadden, W. W., Talking Pictures for Teaching Purposes, 192-198
Methods of Teaching Elementary Science in the Fifth Grade, An Investigation to Determine the Relative Effectiveness of Two, M. L. Robertson, 182-187
Methods Versus the Mechanics of Instruction, E. R. Downing, 468-471
Miller, R. Beatrice, The Method and Content of Science Teaching in France, 355-359
Monroe, G. E., How We May Meet Individual Differences in High School Chemistry, 485-496
More, H. K., The Advent of Psychology as a Unit in Junior High School Science, 199-200

Obourn, E. S., The Improvement of High School Physics Teaching by a Regularly Scheduled Unit Testing Program, 497-505
Osbourne, R. W., Report of Group Conference on Modernizing Our Secondary School Science, 73-74

Pasteur, Shadow Pictures from the Life of Louis—(An Auditorium Program), Mary Rose, 282-284
Penn, Schools in the Delaware Valley Plan Living Memorials to William, E. E. Wildman, 289-290
Persing, E. C., Visual Materials and Science Teaching, 18-23
Photosynthesis Experiment, Some Refinements of the Familiar, 477-478
Physics Teaching by a Regularly Scheduled Unit-Testing Program, Improvement of High School, E. S. Obourn, 497-505
Physics, Unit Organization in High School, E. E. Bayles, 47-50
Pieper, C. J., Research Studies Related to the Teaching of Science, 55-65, 140-148, 233-237, 297-302
Project in Demonstrating Simple Mechanical Facts, The Use of a Motorized, Stanley Zadach, 231-232
Project Work in Undergraduate Physics, B. A. Wooten, 404-406
Pruitt, C. M., Science Reading Material for Pupils and Teachers, 38-46, 116-124, 201-208
Psychology as a Unit in Junior High School Science, The Advent of, H. K. Moore, 199-200

Radiant Energy from Living Matter, William Seifriz, 34-37
Reading Material for Pupils and Teachers, Science, C. M. Pruitt, 38-46, 116-124, 201-208
Research Studies Related to the Teaching of Science, C. J. Pieper, 55-65, 140-148, 233-237, 297-302
Robertson, M. L., An Investigation to Determine the Relative Effectiveness of Two Methods of Teaching Elementary Science in the Fifth Grade, 182-187
Rose, Mary, An Auditorium Program—Shadow Pictures from the Life of Louis Pasteur, 282-284
Ruch, G. M. and Symonds, P. M., Report of the Committee on the Judging of Science Essays, 448-452
Russian Elementary Schools, Science in, G. S. Craig, 3-5

Science Club, Practical Problems of the, H. A. Webb, 6-12
Science Demonstrations, A Plan for Developing a Better Technique in Giving, Edith M. Selberg, 417-420
Science Essays, Report of the Committee on the Judging of, G. M. Ruch and P. M. Symonds, 448-452
Science Objectives at the Junior- and Senior-High-School Level, G. W. Hunter and Roy Knapp, 407-416
Science, Projects and Principals of, E. R. Downing, 285-288
Science Teaching in France, the Method and Content, R. Beatrice Miller, 355-359
Science Teaching, Some Contributions of Research to Practices in, F. D. Curtis, 266-273
Scientific Thinking, Some Results for the Test of, Sam Strauss, 89-93
Secondary School Science, Report of Group Conference on Modernizing Our, R. W. Osbourne, 73-74
Seifriz, William, Radiant Energy from Living Matter, 34-37
Selberg, Edith M., Activity Analysis as a Basis for Supervision in General Science, 188-191
———, A Plan for Developing a Better Technique in Giving Science Demonstrations, 417-420

Sequence of Science in the Junior and Senior High School, The, G. W. Hunter, 103-115
Shoemaker, Louis Meier, Natural Science Education in German Elementary Schools, 13-17, 94-102
Sound Pictures in Elementary Science, Melvin Broadshaug and J. F. Strayer, 360-367
Stars and Planets, Measuring the Temperatures of, 221-230
Strauss, Sam, Some Results for the Test of Scientific Thinking, 89-93
Study Outlines in Physics—Construction and Experimental Evaluation, Jessie W. Clemenson, 453-461
Stuit, D. B. and Englehart, M. D., A Critical Summary of the Research on the Lecture-Demonstration Versus the Individual-Laboratory Method of Teaching High School Chemistry, 380-391
Subject-Matter in Teacher-Training?, What is Professionalized, A. W. Hurd, 238-243
Symposium on the Thirty-First Yearbook of the National Society for the Study of Education, Part 1, "A Program for Science Teaching," F. N. Freeman, J. C. Morrison, E. L. Palmer, W. W. Knox, H. A. Carpenter, and E. E. Bayles, 303-323

Talking Pictures for Teaching Purposes, W. W. McSpadden, 192-198
Teaching Biology, R. A. Waldron, 472-474
Thirty-First Yearbook of the National Society for the Study of Education, Part 1, "A Program for Science Teaching," Symposium on the, F. N. Freeman, J. C. Morrison, E. L. Palmer, W. W. Knox, H. A. Carpenter, and E. E. Bayles, 303-323
Training of Prospective Teachers of Science, Summary of Factual Questionnaire, A. W. Hurd, 134-139

Variation in Method of Teaching General Science, Grace Bagby, 443-447
Visual Aids—of What Worth?, C. E. Wyman, 291-296
Visual Materials and Science Teaching, E. C. Persing, 18-23
Voorhees, I. W., Thomas Henry Huxley: Crusader of Science, 66-72

Waldron, R. A., Teaching Biology, 472-474
Webb, H. A., Practical Problems of the Science Club, 6-12
Wildman, E. E., Schools in Delaware Valley Plan Living Memorials to William Penn, 289-290
Wooten, B. A., Project Work in Undergraduate Physics, 404-406
Wyman, C. E., Visual Aids—of What Worth?, 291-296
Wyman, W. T., General Science Textbook Making, 29-33
Zadach, Stanley, The Use of a Motorized Project in Demonstrating Simple Mechanical Facts, 231-232

ABSTRACTS

Aaron, S. F., The Muscular Power of Insects, 510
Ability to Use the Scientific Method, R. W. Tyler, 326
Academic Freedom and Tenure, Committee Reports, Bulletin of the American Association of University Professors, 507
Activities which Science Students Prefer, The Types of, Elizabeth G. Sichler, 327
Advancement of Teaching, The, W. W. Cook, 324
Age Versus Intelligence as Basis for Prediction of Success in High School, J. B. Maller, 324
American Council on Education, Report of the Fourteenth Meeting of the, 244
America's Lost Empire Solved at Last, Mystery of, R. E. Martin, 423
Antarctica's Most Interesting Citizen, W. E. Shoults, 328
Antz, E. Louise, The Philosophers Recommended to Teachers, 244
Atkinson, Agnes A., Befriending Nature's Children, 328
Atkinson, Carroll, The Effect of Sex Differences in the Study of General Science, 77
Atomic Energy—Is It Nearer?, Waldemar Kaempfert, 511
Automobile, Measuring the Performance of an, H. N. Black, 78
Avocational Science, Practical, B. R. Weimer, 325
Bailey, Edna W. and Laton, Anita D., The Use of Time by High School Students, 506

Baird, W. J., Suggestions for Improving Instruction in General Science, 425
Baker, H. W. and Phares, L. I., A Chemistry Exhibit, 329
Ballew, A. M., Notebook Work in Biology and Training in the Scientific Method of Thinking, 166

Barr, A. S., and others, A Symposium on Educational Research, 75
Bauer, W. W., Getting Ready for Release—Communicable Diseases in the Home, 327
Bayles, E. E., Major Problems in the Teaching of Natural Science, 248
Becker, C. H., Secondary Education and Teacher Training in Germany, 244
———, Secondary Education and Teacher Training in Germany, 324
Beebe, William, A Round Trip to Davy Jones's Locker, 78
Befriending Nature's Children, Agnes A. Atkinson, 328
Benedict, R. C., What Effect Do You Have on Your Pupils?, 163
Bergen, L. M., Objectives in Science Teaching, 76
Berry, Pauline G., The First Year Chemistry Course, Pauline G. Berry, 166
Biology as a Contributing Factor in Health Education, High School, Mary E. Lynch, 248
Biology Field Trip, Organizing a, Jean Nelson, 426
Biology, Humanizing, W. G. Vinal, 79
Biology, Methods of Teaching, H. A. McDowell, 428
Biology Teaching and Visual Aids, Winifred Perry, 428
Biology, Teaching Units in—An Investigation, E. R. Downing, 166
Biology, The Project Method in High School, M. M. Mandl, 248
Birds, of the States, R. W. Westwood, 509
Black, H. N., Measuring the Performance of an Automobile, 78
Botany Materials in Four Well-Known Magazines, K. C. Garrison and R. A. Taylor, 510
Brakeley, G. A., Tuition and Cost of Education, 163
Bray, W. J., A Study of Achievement of Students of General Chemistry in College, 329
Briggs, T. H., The Committee of Ten, 325
———, General Science in the Junior High School, 424
Brink, L. B., The Fallacy of Ability Grouping, 421

School Service Publications, Cleanliness Institute, 433
Science and First Principles, F. S. Northrop, 254
Science and the New Civilization, R. A. Millikan, 84
Science and the New Humanism, The History of, George Sarton, 255
Science and the Scientific Mind, L. E. Saidla and W. E. Gibbs, 336
Science Club Manual, C. L. Exelby and Lida Bell Gambill, 81
Science Discovery Book, H. A. Carpenter and G. C. Wood, 338
Science, Exploratory, A Means of Life Guidance, B. J. Rohan, 257
Science, Foundations of, G. A. Bowden, 82
Science, Readings in, G. W. Hunter and R. C. Whitford, 170
Science Today, Watson Davis, 525
Science, Useful, H. T. Weed and F. A. Rexford, 252
Sea, The, H. A. Marmer, 170
Shapley, Harlow, Flights from Chaos, 172
Shattering Health Superstitions, Morris Fishbein, 520
Sherman, H. C., Chemistry of Food and Nutrition, 523

Skycraft Book, The, Laura B. Harney, 434
Slack, E. P., Elementary Electricity, 339
Social Behavior in Insects, A. D. Imms, 334
Sons of the Earth, K. F. Mather, 84
Spinney, L. B., A Text-Book of Physics, 168
Standard Tests, Introduction to the Use of, S. L. Pressey and Luella Cole Pressey, 257
Stanford Scientific Aptitude Test, D. L. Zyve, 526
Stars in Their Courses, The, Sir James Jeans, 85
Stetson, H. T., Man and the Stars, 172
Stevens, Bertha, Child and the Universe, 336
Stewart, A. W. and Ashbaugh, E. J., Physics Test, 340
Stewart, O. M., Cushing, B. L., and Towne, J. R., Physics for Secondary Schools, 514
Stochard, C. R., The Physical Basis of Personality, 256
Story of the World, The, Edith Heal and others, 331
Strange Animals I Have Known, R. L. Ditmars, 519
Sweden, Science Education in the Secondary Schools of, H. F. Kilander, 257
Symposium, The Sky Book, 527

Taylor, Griffith, Antarctic Adventure and Research, 170
Teaching of High School Chemistry, The, J. O. Frank, 342
Television, E. H. Felix, 340
Tentative Syllabus in General Biology, 341
Thirty Years in the Golden North, Jan Welzl, 520
Thomas A. Edison: Benefactor of Mankind, F. T. Miller, 525
Thomas, Oswald, Heaven and Earth, 258
Thomson, J. A., The Outline of Natural History, 431
Thorndike, Edward L., Human Learning, 82
Thunder and Dawn, Glenn Frank, 430
Timm, J. A., An Introduction to Chemistry, 255
Tobey, J. A., Cancer, 516
Tomlin, F. E., The Best Thing To Do, 526
To the Ends of the World and Back, J. W. McSpadden, 518
Transportation, The Romance of, Ellison Hawkes, 333
Tree Is That, What, E. G. Cheyney, 251

Uninvited Guests, David Causey, 432
Units in Physics, Mastery, Clifford Holley and V. C. Lohr, 430
Universe, The Mysterious, James Jeans, 84
Universe Unfolding, The, R. H. Baker, 339

VanBuskirk, E. F., Lillian, Edith, and Wilson, J.R., Workbook for the Science of Everyday Life, 254

Watkins, R. K. and Bedell, R. C., General Science for Today, 513
———, Learning and Test Activities in General Science, 168
Wead, Frank, Wings for Men, 434
Weed, C. M., Insect Ways, 174
Weed, H. T. and Rexford, F. A., Useful Science, 252
Weld, L. D. and Palmer, Frederick, Textbooks of Modern Physics, 252
Wells, M. M., The Collection and Preservation of Animal Forms, 526
Welzl, Jan, Thirty Years in the Golden North, 520
Wheat, F. M. and Fitzpatrick, Elizabeth T., General Biology, 513
Whitman, W. G., Household Physics, 512
Williams, H. S., The Biography of Mother Earth, 521
Wings for Men, Frank Weed, 434
Winslow, C. E. A., New York Commission of School Ventilation, 337
Wonders of the Plant World, W. A. DuPuy, 525
Woodbury, D. O., Communication, 340
Workbook in Chemistry, S. R. Powers and Ruth Maude Johnson, 81
Workbook for the Science of Everyday Life, E. F. VanBuskirk, Edith Lillian, and J. R. Wilson, 254
Working with Electricity, Katharine Keelor, 525
Work-Test Book in Physics, A. W. Hurd, 172
World Minerals and World Politics, C. K. Leith, 171
Wrenn, C. G., Practical Study Aids, 527

Zoölogy, F. E. Chidester, 437
Zoölogy Manual (Chicago Zoölogy Teachers), 527
Zoölogy, Practical, R. W. Hegner, 435
Zyve, D. L., Stanford Scientific Aptitude Test, 526
